

Step 1: Title Page

- KhethHub Internship Program 2026
- **Task 6: – Smart Agriculture product development roadmap challenges**
- Name:- Pranshu Tyagi
- Role: Web Development Intern
- Date:- 15/07/2026

Task 6 is also primarily a product management and strategy assignment, not a coding assignment.

Table 1 – Product Roadmap (Page 5)

Phase	Duration	Features	Goal
MVP	Month 1–2	Login, Weather	Launch first version
AI	Month 3–4	Crop Advisory	Smart farming
IoT	Month 5–6	Sensors	Real-time monitoring
Marketplace	Month 7–9	Payments	Business growth
National Launch	Month 10–12	Multi-language	Scale across India

How to make it (Word):

1. Insert → Table
2. Select **4 columns × 6 rows**
3. Enter the data.
4. Color the header green.

Table 2 – Feature Prioritization (Page 8)

Priority	Features
Must Have	Login, Weather
Should Have	AI Advisory
Nice to Have	Community Forum
Future	Drone Integration

Table 3 – Development Plan (Page 10)

Layer	Technology
Frontend	React
Backend	Node.js
Database	MongoDB
AI	Python
Cloud	AWS

Table 4 – Team Structure (Page 13)

Role	Responsibility
Product Manager	Product planning
UI/UX Designer	User interface
Frontend Developer	Web & mobile UI
Backend Developer	APIs
AI Engineer	Machine learning
QA Engineer	Testing

Table 5 – Launch Strategy (Page 15)

Stage	Objective
Beta	Test features
Pilot	Small-scale launch
Public	Nationwide launch

Table 6 – Risk Analysis (Page 17)

Risk	Solution
Low adoption	Farmer training
Internet issues	Offline mode

Risk	Solution
Data privacy	Encryption

Table 7 – KPI Metrics (Page 18)

KPI	Target
Farmers	50,000
Active Users	25,000
Revenue	₹1 Crore
Transactions	1,00,000

Table 8 – Release Plan (Page 19)

Version	Features
v1.0	MVP
v2.0	AI
v3.0	IoT

Step 2: Add 2–3 Charts

Charts help readers understand numbers quickly.

Chart 1 – Bar Chart (KPIs)

Show target values for key metrics.

Example data:

KPI	Value
Registered Farmers	50,000
Monthly Active Users	25,000
Marketplace Transactions	100,000
Premium Subscribers	5,000

Bar Chart (KPIs)

Chart 2 – Pie Chart (Revenue Distribution)

Example shares:

- Premium Subscription — 35%
- Marketplace Commission — 25%
- Equipment Rental — 15%

- Advertisement — 10%
 - Enterprise Partnerships — 10%
 - AI Advisory — 5%
-

Chart 3 – Bar Chart (Development Timeline)

Phase	Months
MVP	2
AI	2
IoT	2
Marketplace	3
National Launch	3

Step 3: Add 5–6 Diagrams / Flowcharts

Diagram 1 – Product Vision

Diagram 2 – Product Roadmap

Diagram 3 – Launch Strategy

Diagram 4 – Team Structure

Diagram 5 – Risk Management

Diagram 6 – Release Process

Step 4: Add a Gantt Chart

This shows when each task will be completed.

Step 5: Add a Technology Stack Diagram

Step 6: Add a User Journey Map

KhetHub Product Development Roadmap Dashboard

Purpose

The dashboard should answer these questions:

- What is KhetHub?
- Why is it being developed?
- What features will be built?
- How will it be developed?
- Who will build it?
- When will each feature be released?
- How will success be measured?

1. Hero Section

Purpose

This is the first section visitors see. It introduces KhetHub and highlights its mission.

Content

KhetHub – Smart Agriculture Product Development Roadmap

- Short description
- Call-to-action buttons such as:
 - Explore Roadmap
 - View KPIs

Design

- Full-screen banner
 - Green gradient background
 - Agriculture-themed icons
 - Navigation bar at the top
-

2. 12-Month Product Roadmap Timeline

Purpose

Show the complete development journey over one year.

Timeline

Phase	Months	Deliverables
MVP	1–2	Login, Registration, Weather, Marketplace
AI Features	3–4	Crop Advisory, Disease Detection
IoT Integration	5–6	Soil Moisture, Sensors
Marketplace Expansion	7–9	Payments, Equipment Rental
National Launch	10–12	Multi-language, Analytics

UI

Display each phase as a card connected by a horizontal timeline.

3. Feature Prioritization Cards

Purpose

Explain which features are essential and which can be added later.

Display four cards.

Card 1 – Must Have

- Login
- Registration
- Marketplace
- Weather

Card 2 – Should Have

- AI Crop Advisory
- Push Notifications
- Crop Calendar

Card 3 – Nice to Have

- Community Forum
- Equipment Booking
- Live Chat

Card 4 – Future

- Drone Monitoring
- Satellite Analytics
- Blockchain Traceability

Design

Each card should have:

- Icon
 - Title
 - Short description
 - Feature list
-

4. Technology Stack Section

Purpose

Explain how KhetHub will be built.

Frontend

- HTML5
- CSS3
- JavaScript
- Bootstrap
- React.js

Backend

- Node.js
- Express.js

Database

- MongoDB

AI

- Python
- TensorFlow
- OpenCV

Cloud

- AWS

APIs

- Weather API
- Google Maps API
- Payment Gateway

UI

Use connected boxes to show how all technologies work together.

5. Team Structure

Purpose

Show the development team.

Roles

Role	Responsibility
Product Manager	Plans product strategy
UI/UX Designer	Designs user interface
Frontend Developer	Builds website/app UI
Backend Developer	Creates APIs and business logic
AI Engineer	Develops AI models
IoT Engineer	Integrates sensors
QA Engineer	Tests the application
Marketing Team	Promotes the platform

Design

Organization chart with the Product Manager at the top.

6. Launch Strategy

Purpose

Explain how KhetHub will be launched.

Steps

Planning

Prototype

Beta Testing

Farmer Feedback

Pilot Launch

Public Launch

Marketing Campaign

Each step should include a short explanation.

7. Risk Analysis

Purpose

Identify challenges and solutions.

Risk	Solution
Low Farmer Adoption	Awareness campaigns
Internet Issues	Offline mode
Competition	Better AI features
Data Privacy	Secure encryption
Funding	Investors and grants

Display each risk as a card with an icon.
